Audi B8 Car Install

1 Remove side dash cover. Pry from the bottom and it just pops off.

2 Remove trim from around your vent. This also simply pops off with a trim pry tool or your fingers.

3 Carefully remove the vent and disconnect the small lighting connector

4 Insert the P3 VID1 pre-installed vent into the dash, running the wire out the side. If you did not order pre-installed, see vent install PDF file at p3cars.com/install

WARRANTY & LIABILITY:

Neither P3 Cars, nor its dealers or agents shall be liable in any way, for any damage, loss, injury or other claims, resulting from the installation or use of this product. By purchasing or installing this product, you assume all liability of any kind connected with the use and/or application of this product. If you are unsure that you can safely install and use this product, consult a qualified installer or mechanic. The warranty on this product covers only the product itself for a period of 6 months from the date of purchase, and it will be at our discretion to repair or replace the affected parts. No user serviceable parts inside. Warranty will be voided if product shows physical damage.

5 Replace the trim around your vent. NOTE: The silver trim ring around the vent can stay with the vent.

6 Connect the display cable to the control box.

7 Connect the harness to the control box and tighten connectors.

8 Plug the diagnostics port connector into the obd2 port located in the footwell shown with red arrow here.

9 Now that everything is connected, start car to check functionality.

10 Tuck wires and control box into the dash. Secure them so that it does not fall out.
