# FR-S / BRZ / GT86 VENT INSTALL

- 1 Remove the largest outer trim ring by releasing the clips on the sides of the vent.

- 2 Remove the next trim ring in the same manner, and then remove the rotating vent slat carriage.

## WARRANTY & LIABILITY:

Neither P3 Cars, nor its dealers or agents shall be liable in any way, for any damage, loss, injury or other claims, resulting from the installation or use of this product. By purchasing or installing this product, you assume all liability of any kind connected with the use and/or application of this product. If you are unsure that you can safely install and use this product, consult a qualified installer or mechanic. The warranty on this product covers only the product itself for a period of 6 months from the date of purchase, and it will be at our discretion to repair or replace the affected parts. No user serviceable parts inside. Warranty will be voided if product shows physical damage.

- 3 Remove the connecting arm from the top flap, and remove the bottom double flap to create room for the gauge. You can squeeze the top and bottom of the circle to flex it open and easily remove the vent flaps.

**4** Insert the VIDI Display into the carriage. The 2 small tabs fit into the HOLES where the old double flap vent piece was retained. Once again, squeeze the vent ring on the top and bottom to flex it and allow easy insertion.

**5** Feed the VIDI display cable through one of the outer holes on the vent tube rear.

**6** Insert the carriage back into the vent tube and replace the first trim piece.

**WARRANTY & LIABILITY:**  
Neither P3 Cars, nor its dealers or agents shall be liable in any way, for any damage, loss, injury or other claims, resulting from the installation or use of this product. By purchasing or installing this product, you assume all liability of any kind connected with the use and/or application of this product. The warranty on this product covers only the product itself for a period of 6 months from the date of purchase, and it will be at our discretion to repair or replace the affected parts. No user serviceable parts inside. Warranty will be voided if product shows physical damage.

**7** Replace the final outer trim ring. The largest section goes on the left side for LHD cars.

**8** RE-INSTALL VENT INTO CAR AND PLUG GAUGE INTO YOUR OBD2 PORT!
