BMW E85/E86 Install

- 1 Remove the retainer screws holding in the vent and remove the vent from the vehicle. You will need to unscrew the 2 screws shown, remove the vent and cupholder assembly, and then remove the cupholder by unscrewing the TORX screw on the rear of the vent

- 2 IF YOUR VIDI WAS PURCHASED WITH THE PRE-INSTALL OPTION, SKIP STEPS 2 & 3
Pop the plastic tab on the back of the vent, and release the 2 clips on the left side of the vent. Remove the entire vent facia, and then pop out the BOTTOM TWO vent slats ONLY.

WARRANTY & LIABILITY:

Neither P3 Cars, nor its dealers or agents shall be liable in any way, for any damage, loss, injury or other claims, resulting from the installation or use of this product. By purchasing or installing this product, you assume all liability of any kind connected with the use and/or application of this product. If you are unsure that you can safely install and use this product, consult a qualified installer or mechanic. The warranty on this product covers only the product itself for a period of 6 months from the date of purchase, and it will be at our discretion to repair or replace the affected parts. No user serviceable parts inside. Warranty will be voided if product shows physical damage.

- 3 Trim the small tab that protrudes into the area where the VIDI display will sit. Feed the display cable through the far side of the vent and out the back. Place the display in the place of the 2 lower slats. Replace the vent facia and secure the rear plastic tab with a hot iron or glue.
